

“How To....” Guide for your Flat White Website

Contact Form Entries

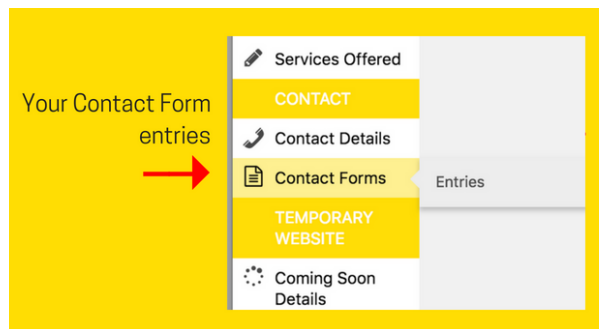

Your website is set up with a Contact Form, which is on your Contact Page.

The contact form contains the following fields:

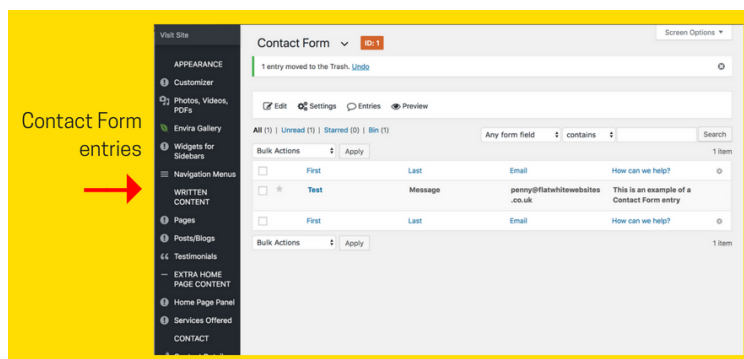

- Name * (split into First and Last)
- Email *
- How can we help? *
- Submit button

Entries

Copies of the Contact Form entries will be emailed directly to you, but you can also access your Contact Form entries via your WordPress Dashboard:

Your entries are listed here:

The colour of the dashboard will change to black and white, which is a quirk of the Contact Form we use, but it will revert to the usual colour when you click on any other items in the Dashboard.
