

“How To....” Guide for your Flat White Website

Edit your About Page

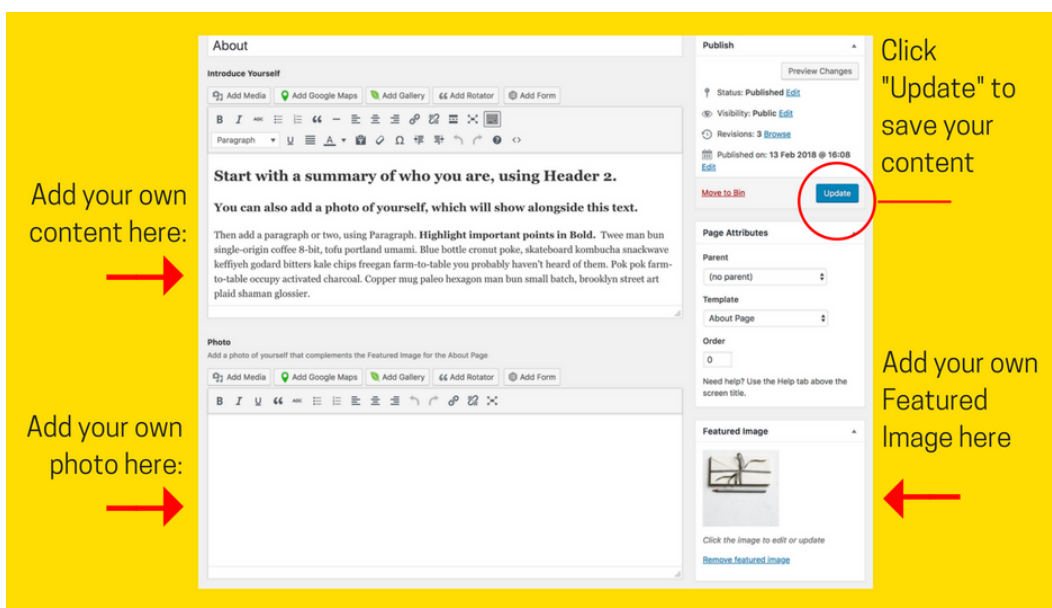

Your website is already set up with an About Page – your chance to tell your visitors how you can help them.

You can edit the content of this by clicking on the About Page within the WordPress Dashboard:

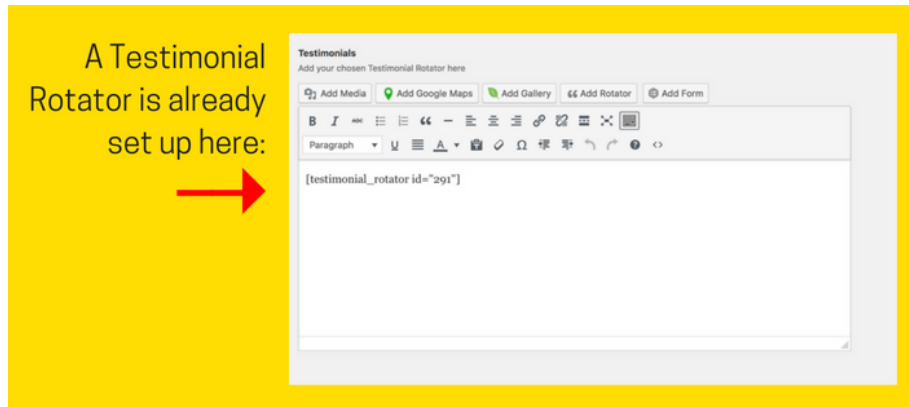

Edit the About Page

Add details about you, your business, and how you can help your customers, plus an extra photo of you. You can also change the Featured Image, which shows up as the Background Image on your page.

There is a Testimonial Rotator set up on your About Page, where you can add testimonials from customers or clients.

To find out more about how to add Testimonials, see the separate “How To...” Video and PDF.
