

“How To....” Guide for your Flat White Design website

The WordPress Dashboard

When you log in to your website, you will land on the WordPress Dashboard page.

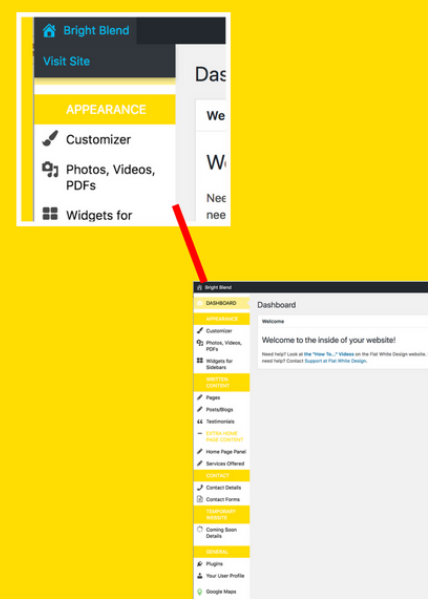

From here, you can access all the content on your website, edit the layout, add or edit pages and posts, access the customizer, and more. You will also find a link to all the “How To....” Videos, as well as a link to email us for any extra support you might need.

Visiting your Website

To visit your website from your dashboard, click on the website name on the top left-hand corner.

We recommend keeping a separate tab open for your live website, so that you can easily switch between the dashboard and the site.

To visit your website, click on your website name on the top left of the screen.

Logging Out

To log out of your website, click on your username on the top right-hand corner of your screen.
